

# National & Regional Food Systems Networks

This directory of sector and stakeholder specific local and regional food system networks was created as part of the Local and Regional Food Systems Response to COVID-19 Resilience Playbook. We recognize that each sub-sector of LRFS has its own distinct operations, challenges, and adaptations, and recognize the value offered by national and regional networks in supporting work across sectors and scales. This directory offers a list of networks who have participated in this project's Network of Networks. Any questions or comments can be directed to [annelise.straw@usda.gov](mailto:annelise.straw@usda.gov).
